What is *care*?

Care is **everything that we do to maintain, continue and repair "our world" so that we can live in it as well as possible**.

- Toward a Feminist Theory of Caring, Joan Tronto and Bernice Fischer

What is *care*?

That world **includes our bodies, our selves, our environment, and the relations** that maintain and repair a world so that **humans and non-humans** can live in it as well as possible in **a complex life-sustaining web** […] inviting us to ask "For whom?" but also "Who cares?" "What for?" "Why do '***we***' care?" and mostly "**How** to care?"
